# Meeting Objectives

- Define short- and long-term value of a centralized eCQM system for each stakeholder, based on categories of use cases
- Identify possible high-level priority use cases within the categories for each stakeholder
- Discuss the specificity needed to develop a functional use case
- Agree on at least three core eCQMs that can be used to test an eCQM development process

# Value Propositions for Stakeholder Sectors

- Payers (state and commercial)
- Independent clinicians/groups of clinicians
- Hospitals
- Delivery systems taking on APMs
- Behavioral Health
- Public Health
- Consumers

# How Could a Centralized eCQM System Benefit Your Business?

- Decreased administrative costs for all quality measurement activities
- Marketing advantages
- Internal program evaluation
- Accreditations/Certifications
- Clinical quality improvement efforts
- Patient-to-provider attribution through a shared eMPI and provider directory
- Assessment of health status by non-clinical characteristics
- Other

# High Priority Use Cases: Example

## Stakeholder Group: Payers

High Priority Use Cases (based on providers' total population base):

- Reimbursement
- Network management
- Product development (HSA's)
- Leverage eMPI and provider directory
- Improved ability to calculate financial risk

# Examples of Specificity

- Provider type
- Patient cohort
- All recipients
- Transmission of data or completed measure
- Final use of data or measure

# Next Steps

- CedarBridge will collate and send value propositions, by stakeholder sector, to Design Group members
- CedarBridge will create a template for the eCQM use cases, based on today's discussions
  - Design Group members to review and comment before March 7<sup>th</sup>
- Design Group members to solicit feedback from respective stakeholders on value propositions and priority use cases
